New funding of up to \$500,000 to elevate production levels and further strengthen the Company's balance sheet.

NOT FOR DISSEMINATION IN THE US OR THROUGH US NEWSWIRE SERVICES

June 28, 2016 - Scottsdale, AZ - Lattice Biologics Ltd. (TSX-V: LBL) (OTCBB: BLVKF) ("Lattice Biologics" or the "Company") is pleased to announce that it has negotiated a partially brokered private placement of Units of the Company (the "Units") at a price of CDN\$0.20 per Unit, for gross proceeds of up to USD\$500,000 (the "Offering"). Each "Unit" consists of one common share in the capital stock of the Company (a "Unit Share") and one-half of one non-transferable common share purchase warrant of the Company (a "Warrant"). Each whole Warrant is exercisable into an additional common share at a price of CDN\$0.20 per share for a period of 36 months from the date of closing of the Offering. The Company has the right to increase the size of the Offering without providing further notice to subscribers.

"This round of funding is very important as we begin to ramp up our processing throughput to meet the expected demand for our products," said Cheryl Farmer, Lattice Biologics CFO. "I am especially pleased to have the strong support of our investors at this critical juncture."

The Offering is subject to TSX Venture Exchange acceptance. The Offering will be partially brokered by Silber Bennett Financial, Inc. (the "Agent"), which will receive a finder's fee of 6% of the amounts raised by the Agent.

This latest development provides additional forward momentum for the Company's ongoing efforts to strengthen its balance sheet. The proceeds from the Offering will be used for general working capital, to elevate production levels in order to meet the

demand associated with Lattice's recent major hospital group approvals (announced on [June 9 2016](#) and [June 20 2016](#)), and to service the Company's short term debt obligations.
